ALUMNI SPEAKS

Swapnil Pawar 

Itvedant is best training institute for It courses in Thane.I've never completed a course like this before . and I cannot express how great the instructor was(specially Archana ma'am and Shirish sir) and the overall content of the material. I would definitely recommend this to friends as well as others. They also conduct extra Webinars and give chance to students to take participation in the webinar.Thank you Itvedant and team.

Sheetal Gupta 

Very proud to be a part of Itvedant institute(Thane branch) as a student.. Thanking to all the staffs for their helpful nature..Ready to serve you the best possible way of teaching including personal attention.Very important part of this institute i like most is e-class in this lockdown..they take care by providing each and every facilities to the student in this lockdown for their career.. Talking about the lecturer they are really best..I have been under the guidance of Swapnil sir(Python), Mayuresh sir(Html/css), Sneha maam(dbms),and Shirish sir(PHP core and adv)They have high technical teaching skills.. Additional to this we also have the placements department staff Amit Sir and Manali maam who give placements to the best MNC awa others company. Though there is a lockdown, still they are on their duty for their student to be placed in a good company.For the first time in my life have attended online webinar for Jobs I mean they are so caring.Also our non teaching staff Vidya ma'am is so helpful, she gave me solutions for every problem that I faced, adjustment for our lectures according to our college lectures ,I really feel Happy that I am a part of ITVEDANT.. Thank you so much to u all guys really doing a great and best job...

Rishabh Gangurde 

I enrolled for Data science course in ITVEDANT Thane and got placed during this lockdown in PRDXN INDIA as a Web Developer. The best part of ITVEDANT is that they give you placement guarantee and job opportunities till you get placed. I'm thankful to the placement department that I got two offer letters and I finally joined PRDXN INDIA. Now talking about teaching, it is really good. The faculties are so friendly that you don't hesitate to ask any doubts. The environment and infrastructure is very good and impressive.

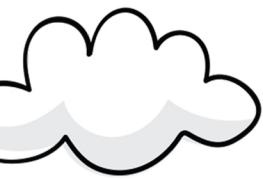

Shraddha Kute 

As a faculty Shirish sir is the best... He has a huge knowledge in HTML and CSS.His demonstration skill is fantastic.He is always available for students. He is very polite, humble and is always Punctual.He explains concepts thoroughly and in an easy way.All my questions were answered which cleared my every single doubt. I am a Non-IT student. But Shirish sir made it simple.I loved his each and every lecture which was always crisp and clear.Thank you sir.. Thank you so so much...

TRAINING PROCESS FOR MASTER CERTIFICATION

MASTERS IN DATA SCIENCE & ANALYTICS

Python for Data Science

- Datatypes & operators
- Conditional Statements
- Loop
- Function
- Module
- OOP
- Exception Handling
- File Operation
- Regex and Web scraping
- Flask API
- Numpy
- Pandas
- Visualization

RDBMS using MySQL

- Data Modification Language(DML)
- Data Query Language(DQL)
- Built-in SQL and DDL
- Sub-query & Joins
- Views & DCL
- Stored Procedures and functions
- Exception handling
- Cursor
- Triggers

Machine Learning

- Linear Regression
- Regularization
- EDA and Preprocessing
- Feature Selection
- Logistic Regression (Classification)
- Decision Tree
- Ensembling
- Boosting
- Unsupervised Learning (clustering)
- SVM

Statistics

- Descriptive Statistics
- Probability
- Inferential Statistics
- Algebra and Derivatives

Big Data

- Hadoop Installation
- HDFS File System
- Map Reduce
- Yarn
- PIG
- HIVE
- HBASE
- ZooKeeper
- Flume
- Sqoop
- Apache Spark with Scala
(Core Spark and Spark SQL)

Deep Learning

- Introduction to Perceptron & Neural Networks
- Activation and Loss functions
- Gradient Descent
- Batch Normalization
- TensorFlow & Keras for Neural Networks
- Hyper Parameter Tuning

Tableau

- Introduction to Tableau
- Tableau Shelf and cards
- Connecting to & Preparing Data
- Organizing & Simplifying Data
- 5 Field & Chart
- 6 Analytics
- 7 Tableau Dashboards
- Case study

DURATION
12 Months

MODE OF TRAINING
Classroom / Online

PLACEMENTS
100% Job Assurance

MASTERS IN DATA SCIENCE & ANALYTICS

Natural Language Processing (NLP)

- Stop Words
- Tokenization
- Stemming & lemmatization
- Bag of Words
- Word Vectorizer
- TF-IDF
- POS Tagging
- Named Entity Recognition

Time Series Analysis

- RNNs & its mechanisms Vanishing & Exploding gradients in RNNs
- LSTMs - Long short-term memory
- GRUs - Gated recurrent unit
- LSTMs Applications
- Time series analysis
- LSTMs with attention mechanism
- Neural Machine Translation

AI Capstone Projects

- Deep Learning with Tensorflow & Keras
- Natural Language Processing (NLP)
- Computer Vision (CV)
- Time series analysis
- Deploying AI application
- Hyper Parameter Tuning

Computer Vision

- Introduction to Convolutional Neural Networks
- Convolution, Pooling, Padding & its mechanisms
- Forward Propagation & Backpropagation for CNNs
- CNN architectures like AlexNet, VGGNet, InceptionNet & ResNet

Recommender System

- Introduction to Recommender system
- Conditional Filtering
- Nearest Neighbor Collaborative Filtering
- Evaluation metrics
- Matrix Factorization

R Programming

- Descriptive statistics
- Probability
- Inferential statistics
- Introduction to R
- Advance R
- Data I/O
- Data manipulation
- Data Visualization

SOFT SKILL DEVELOPMENT @ ITVEDANT

Resume Preparation

A well-crafted resume helps in demonstrating you at the best to potential employers. A resume can't be as long as a CV and students should be very careful in presenting themselves to the employers through a resume. A good resume helps in creating a winning first impression and for the same, We at Itvedant provide you with rich insights on building an appealing resume previewing resumes of professionals working at Google, Microsoft Etc. Building good resumes are not taught at schools or Universities, but we provide you with every knowledge about resumes and help your resume to stand out in the market.

Mock Interviews

Mock Interviews are done for our students to get familiarized with interviews. Top technical and HR questions are asked to students during the mock interview to make them familiar with the most asked questions by recruiters. Mock Interviews play a pivotal role in building up the confidence level of candidates through continuous practice. Students are taught interview ethics and are given a detailed review after every interview, pointing out the scopes of improvement after every Mock Interview.

Web Portfolio Development

Our students are equipped with building personal websites or web portfolios of their own in just three hours time. A web portfolio is nothing but your resume on the web, where you can showcase your relevant skills, project images, videos and much more. A web portfolio of your own also increases your chance of getting hired by 200%. Individuals are also assisted in creating a professional LinkedIn profile by our expert placement team.

Linux Training

Linux is one of the most robust operating systems and is used by more than 70% of the companies. Considering the strong demand of Linux, Individuals are equipped with strong knowledge of the operating system during the training period, including the operation of the operating system using commands. Rich knowledge in Linux increases your chance of getting hired by 200%.

GIT Training

We are the only institute in the market training students in GIT, which is in use by more than 99% of companies. GIT is the most preferred open source version control system used for team coding. A rich knowledge in GIT is expected from developers as they are supposed to use the same in programming. GIT is in high demand and the training improves your chance of getting hired. Learning GIT helps you in landing on your dream job much easier.

Aptitude Test

It is really important to crack the employment aptitude test by the recruiters to get into the next level of the recruitment process; Considering this, we at Itvedant train our students to crack the aptitude test with ease. Our students are given worksheets to practice Numerical Problems, Logical Reasoning, Quantitative Aptitude, English Grammar etc. Students are also given training to face technical questions in the aptitude test through continuous practice of selected questions, which help them to crack the aptitude test with ease.
